Playing music
Travel

OBJECTIVE

To obtain a position in a reputable company where I can apply my knowledge and skills as a fresh graduate, gain practical experience, and contribute to the growth of the organization while continuously learning and improving myself.

WORK EXPERIENCE

On the Job Training

- School Divisions of Ilocos Norte
- June 13 – July 10, 2025
- A Scheduling System that efficiently manages meetings, prevents schedule conflicts, and notifies users of upcoming meetings within a specified number of days, developed using ReactJS, Node.js, and PostgreSQL.

Thesis Project

- Mariano Marcos State University
- **NLP-Based Evaluation of Multiple-Choice Questions**
NLP-Based Evaluation of Multiple-Choice Questions using BERT embeddings and semantic analysis to evaluate question quality and alignment based on a pre-labeled dataset.

PROJECTS

- **NLP-Based Evaluation of Multiple-Choice Questions**
Built an NLP model leveraging BERT embeddings and semantic similarity to classify and evaluate multiple-choice questions using a pre-labeled dataset with alignment annotations, improving efficiency and consistency in question assessment.
- **Pizza Ordering System (C++)**
Developed a console-based pizza ordering system in C++ that allows users to select menu items, customize orders, calculate totals, and generate order summaries.
- **TrendWear - E-Commerce Clothing Website**
Developed a responsive online clothing store that allows users to browse products, view item details, manage a shopping cart, and place orders through a user-friendly interface.
- **Coffee Shop Reservation and Ordering System**
Developed a web-based system that allows customers to reserve tables, browse menus, and place orders through an integrated platform.
